ISLAMIC SHARE MARGIN FINANCING (SMF-i)

 Date: _____
 [to be filled by Relationship Manager]

1. What is this product about?

Islamic Share Margin Financing (SMF-i or the Facility) is a secured financing facility for the purpose of purchasing Shariah-compliant shares listed on Bursa Malaysia. To facilitate the financing, an aqad/contract under the concept of Commodity Murabahah via Tawarruq arrangement will be executed. The profit computation is based on the outstanding financing amount.

2. What is the Shariah concept applicable?

SMF-i adopts the concept of Commodity Murabahah (via Tawarruq) arrangement that consists of two sale and purchase contracts. The first involves the sale of an asset by a seller to a purchaser on a deferred basis. Subsequently, the purchaser of the first sale will sell the same asset to a third party on a cash and spot basis.

Transaction flows:

- The Customer and RHB Islamic Bank Berhad (the Bank) enter into an agreement where the Customer promises to buy a specified commodity or asset from the Bank and the Customer appoints the Bank as his agent to buy and sell the said commodity.
- The Bank will purchase a commodity from Broker A at a purchase price (Purchase Price);
- Ownership of the commodity will be transferred to the Bank;
- The Customer (through his agent) will buy from the Bank the commodity at a selling price (Selling Price) which comprises of the cost price (equivalent to the Purchase Price) and a mark-up profit margin (Total Profit) on a deferred basis;
- Ownership of the commodity will be transferred to the Customer;
- The Bank acting as Customer's agent will sell the commodity to Broker B;
- Broker B will purchase the commodity at a price (equivalent to Purchase Price) and credit the Bank's account to reflect the sale transaction;
- the Bank shall make the cash proceeds from the sale transaction available to the Customer by availing SMF-i line to finance the Customer's purchase of Shariah-compliant shares.

ISLAMIC SHARE MARGIN FINANCING (SMF-i)

 Date: _____
 [to be filled by Relationship Manager]

Rate Feature	:	CPR and EPR
Ceiling Profit Rate (CPR)	:	10.25% p.a. CPR will be used to calculate the Total Profit. In any cases where the effective rate is more than 10.25% p.a., you will only be charged a maximum rate of the CPR. Note: Please note that the CPR for other than Retail customer will be 12% p.a.
Effective Profit Rate (EPR)	:	Base Rate Islamic (BRI) + 1.70% effective rate 5.20% Note: For current BRI, please refer to RHB Group website.
Collateral Type	:	ESOS/ IPO/ Single Counter/ Multiple Counter Shares
Tenure/ Availability Period	:	5 years, with annual review

4. What is the Base Rate Islamic (BRI)

The BRI we offer on this product is made up of two parts, our benchmark cost of funds (COF) and the Statutory Reserve Requirement (SRR) cost imposed by Bank Negara Malaysia. Our benchmark COF reflects the internal funding cost comprising the cost of raising new funds at market rates as well as the promotional rates and is based on the rolling 12 months average composite of our customers' current and savings account deposits, fixed and money market term deposits with tenure up to 12 months.

5. What are the possible scenarios to trigger a change in the BRI?

Our BRI can rise or fall due to changes in the benchmark COF and changes in the SRR. Changes in the benchmark COF could occur due to changes in the Overnight Policy Rate (OPR) as decided by the Monetary Policy Committee of Bank Negara Malaysia, as well as other factors such as RHB deposits' promotional rates and funding strategies

6. Historical Benchmark COF in the last 2 year(s) and 6 month(s):

7. What is Margin of Financing (MOF)?

Margin of Financing is the ratio of outstanding balance against the equity. Outstanding balance means the amount owed after deducting any cash deposit available. Equity means the sum of the value of securities pledged and purchased or carried in the Facility. i.e. 50% of MOF means the client has to maintain an equity value of not less than 2 times of the outstanding balance.

8. What are my obligations?

- You are expected to **service the profit on a monthly basis** based on the outstanding financing amount. The profit will be calculated based on the prevailing EPR, on a daily rest basis and will be chargeable at month end.
- You are required to maintain the required margin of financing throughout the tenure of the Facility in accordance to the percentage determined by the Bank.
- You are required to promptly regularize the account position whenever there is margin call due to breach of Margin Call Threshold.

Margin Call Threshold	Where the market value of the security falls below the threshold of the outstanding balance, you shall within three (3) market days' grace period to regularize the account by either cash/shares top-up or sell down so as to bring the security coverage to not less than the threshold.

Failure to bring the security coverage to the required margin of financing shall result in force selling of your securities on the fourth market day after the date of the margin call. You shall be suspended from buying any further securities under the Facility upon a margin call being made until the required margin of financing is regularized to the satisfaction of the Bank.

- iv. No fixed monthly payment is required. You may make any payment as and when you wish throughout the financing tenure by way of cash top-up or sale proceeds from shares disposal. Payable profit will be billed on last day of the month. At any time, total payment made by Customer must not exceed the Bank's Selling Price.
- v. The EPR on this financing is pegged to the BRI which may fluctuate from time to time. An increase in the BRI may result in higher profit charge.
- vi. You are to pay the outstanding sums of the Facility including principal, profit or any other monies due to the Bank upon cancellation or termination of the Facility.

Note: If you have problems meeting your obligations, contact us early to discuss payment alternatives.
